

The Russian Revolution and the Unfinished Twentieth Century now available in eBook format

3 December 2014

Mehring Books is proud to announce that *The Russian Revolution and the Unfinished Twentieth Century* by World Socialist Web Site International Editorial Board Chairman David North is now available in eBook format. An ePub version is available at Mehring.com for \$9.99. It is also available for Kindle download at Amazon.com.

Mehring Books offers a wide selection of our library in ePub and pdf format. For a full listing, visit our digital publications section .

While shopping at Mehring be sure to take advantage of savings during our holiday sale. Most individual titles and sale bundles are marked down from 10 to 50 percent. *The Russian Revolution and the Unfinished Twentieth Century* is an essential addition to your Marxist library. In this volume North argues against the claims by contemporary historians that the collapse of the Soviet Union represented the “end of history” (Francis Fukuyama) or the completion of the “short twentieth century” (Eric Hobsbawm). In the course of the book North reviews the essential historical, political and theoretical lessons of the twentieth century, insisting that a thorough materialist knowledge of this history is essential for the development of an international socialist movement today.
