

Jerry White speaks on the next stage of the US presidential elections

**By Jerry White—SEP presidential candidate
11 June 2016**

With the US presidential primaries coming to a close, the American people are presented with a “choice” between Democrat Hillary Clinton and Republican Donald Trump—two right-wing candidates of war and reaction. The millions of workers and youth who supported Bernie Sanders have been led to a political dead end, as he has now lined up behind Clinton.

What is needed is a social revolution by the masses of working people to put an end to war and the dictatorship of the banks and big business. The purpose of the campaign of the Socialist Equality Party is to build such a movement, and we urge you to get involved and take up the fight for socialism.
